5. Items for Consideration

A. A. Republic Services Request for a 5 Year Contract Renewal: Residential Trash Pickup

Tracy Nestor, Municipal Services Manager, Republic Services, came before the Town Council to propose a 5 year contract renewal for residential trash pickup. The proposal called for a renewal price of \$11.28 per month per residence, which is the per month price of the current agreement. The proposed 5 year renewal is to allow Republic to cost our new trucks, which will allow mechanical pick up of roll out carts. Republic will provide each resident a 95 gallon roll out cart for trash pickup and a roll out cart for recycling pickup on or before October 1, 2016. The new rollout carts will be no additional cost to the resident.

Council Members asked if there were smaller cart options other than the 95 gallon roll out cart, due to senior citizens needs and cart storage limitations at some residences. Ms. Nestor did say that she could work to provide a 65 gallon roll out cart option for those residents that would like the smaller one. She would work with town staff to communicate to the residents.

Council Member John Guglielmi made a motion to approve the proposed five year contract extension with Republic Services, as presented and effective July 1, 2016. Council Member Jerry West seconded the motion. The motion was approved by a vote of four (4) in favor and none opposed.

The other Council Members also expressed equal concerns. Council Member Coley suggested that perhaps all golf carts driven on town streets must be registered at Town Hall, with owners signing a disclaimer committing to not allowing underage drivers to utilize the golf cart on town streets. No formal action was taken at this time.

H. Streetlight Agreement with Duke Energy: Old Towne Drive

I. Budget Amendment – Utility Fund

Lee Rollins provided the Council with an update on the Utility Fund, showing water purchase from Davie County and subsequent reimbursements from customers along Bing Crosby Boulevard. A budget amendment to the Utility Fund is needed to reflect \$225,000 in revenues and \$225,000 in expenditures to reflect the accounting of water purchase and reimbursement.

J. Above Gound Pools

Council Member Jerry West, on behalf of Council member Ken Bateman, asked that consideration be given to concerns regarding a very large inflatable above ground pool in Kinderton Village. Erin Burris stated the town Zoning Ordinance addresses a prohibition of permanent above ground pools, but does not address regulating the type and size of inflatable above ground pools. Lee Rollins communicated with Ann Scofield to see if the restrictive covenants for Kinderton Village address this type of use. She stated that the restrictive covenants do give the Architectural Review Committee authority to review and approve or deny the installation of a pool of this type. She will ask the resident to submit a request to the ARC for consideration.

The Council would like to see the outcome of the ARC decision, before taking any further action on the issue.
